PROFESSIONAL SUMMARY

Motivated Software Engineering student with a 3.45 CGPA and strong Computer Science fundamentals built over years of study, having studied CS since 9th grade and consistently scoring the highest marks in the subject. Hands-on with HTML, CSS, JavaScript and MySQL, and currently advancing into React.js. Fast, self-driven learner who builds projects independently, enjoys problem solving, and is looking for an internship or entry-level opportunity to grow as a software developer.

EDUCATION

Bachelor of Science in Software Engineering

[2024] – Present

[Virtual University of Pakistan], Lahore

- **CGPA:** 3.45 (after completing 4th semester)
- **Relevant Coursework:** Database Management Systems, Software Architecture, Software Engineering I, Mathematics, Statistics, Operating System
-

Intermediate (Computer Science)

[2024]

[Govt College Women], Burewala

- **Percentage :** (70.17%)
- **Relevant Coursework:** Relevant Coursework: Mathematics, Physics, Computer Science, Statistics, Financial Accounting, Programming Fundamentals, Data Structures, Database System

TECHNICAL SKILLS

Web Development: HTML5, CSS3, JavaScript (ES6), Responsive Web Design, DOM Manipulation

Frameworks & Libraries: React.js (currently learning)

Databases: MySQL, SQL Queries, Database Design, Database Management Systems (DBMS)

Core CS & SE Concepts: Software Engineering Principles, Software Architecture, Data Handling, Mathematics

Tools & Platforms: GitHub, Browser Developer Tools

PROFESSIONAL SKILLS

Core Strengths:

- Problem Solving, Analytical Thinking, Logical Reasoning, Attention to Detail, Debugging Mindset

Work Skills:

- Time Management, Self-Learning, Documentation, Project Planning, Research & Continuous Improvement

SOFT SKILLS

Interpersonal: Communication, Teamwork & Collaboration, Adaptability, Willingness to Learn

Personal: Self-Motivation, Consistency, Curiosity, Responsibility, Growth Mindset

PROJECTS & PRACTICAL EXPERIENCE

Web Page Project (HTML)

- Designed and built a web page using semantic HTML and applied structure, layout and content organization principles.

- Currently extending it with CSS styling and JavaScript interactivity, and planning to rebuild it in React.js.

Self-Directed Learning

- Independently learning front-end development (CSS, JavaScript, React.js) alongside university coursework through hands-on practice and building small projects.
- Applying database concepts from coursework by writing and testing MySQL queries and designing simple database structures.
